

# Qcoom.com

- **Issue:** Registration page cannot be closed without filling popup form information

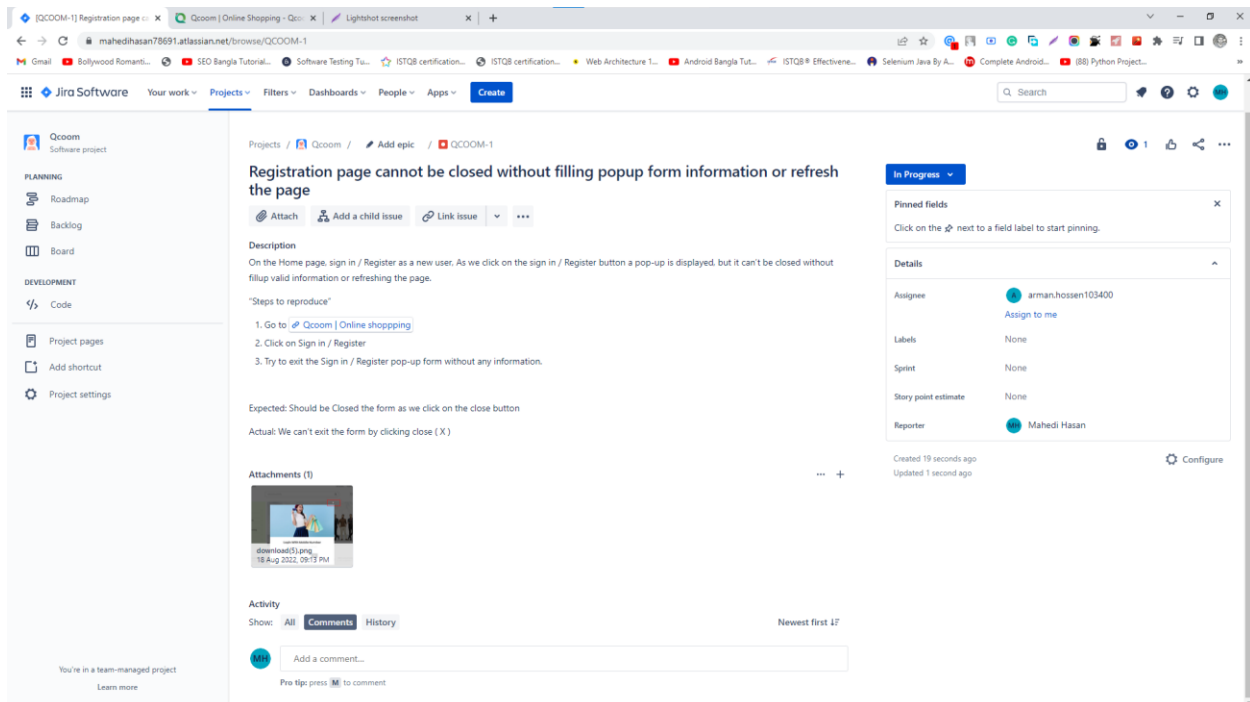

## Description:

- Go to URL = Qcoom.com
- Click on Sign in / Register
- Try to exit the Sign in / Register pop-up form without any information.

**Description:** The Task was assigned to Arman Hossen for solving the issue.

**Description:** The developer was working and it was in progress stage.

QCOOM-1 Registration page cannot be closed without filling popup form information or refresh the page

On the Home page, sign in / Register as a new user. As we click on the sign in / Register button a pop-up is displayed, but it can't be closed without fillup valid information or refreshing the page.

"Steps to reproduce"

1. Go to [Qcoom | Online shopping](#)
2. Click on Sign in / Register
3. Try to exit the Sign in / Register pop-up form without any information.

Expected: Should be Closed the form as we click on the close button

Actual: We can't exit the form by clicking close (X)
